

Superjune *& the Tikiwaves*

SUPERJUNE & THE TIKIWAVES - a pop oriented rock band with an expressive singer, reverb drenched guitars and tight grooves

The music is inspired by the sunny life feeling of Californian surf music from the sixties, has however the driving pulse and fat sound of the 21st century. The musicians are JAY R. HALL, guitars; INK O ' K, drums; J.P. Red, bass; BURNT N. VIC, percussion. They all have experiences of many years in the music business. JUNILIA as the youngest member is a promising singing talent with an amazing voice. The straight different characters, of which everyone has its own history, influence the music and lead to a unique style.

On the current, fourth LP **LUNAR DANCING** nine self-compositions can be heard. The English lyrics take up topics beyond usual clichés. The lyrics are influenced by comics and raising fantastic pictures to its listeners immediately. The songs are charged with quotations from the rock-, funk- and pop history, convince with modern, fresh sounds and animate to dancing. They affects in a strange manner familiarly and enchanting. Exotic sounds inspire the longing after a beach vacation in the South Seas.

SUPERJUNE & THE TIKIWAVES are a live band: authentic, energy-loaded and spontaneous. On the stage develops a bright coloured sound, which leaves also place for improvisations. Some surf songs and soundtrack elements from famous Tarantino movies supplement the program. This combination fits ideally in the "wide screen sound" of the band.
